I STAY asleep once I'm under, I don't toss and turn nearly as much, and I am falling asleep faster most nights. 5.22.11 *Jody E.*

Forgive me for sounding like a cheesy infomercial, but this sound conditioner is worth it's weight in gold. Not only did I fall asleep faster, I slept **harder/better**. 9.3.13 *by "wheezier"*

I always wake up feeling refreshed or fully rested if I actually give myself a decent amount of time to sleep before I set my alarm and there aren't any mitigating factors like a ton of caffeine in my system. 9.11.11 *by Laz*

**This little machine is a life saver!!!** I keep it on the lower setting; it's the perfect white noise. I wake up for work at 4:30am well rested and ready to go. I would recommend this to anyone who needs a good night of sleep. 1.30.13 *by Christine*

It's a marriage saver. D.M.-SanClemente, CA

Great Machine,  
the answer to  
snore torture.

What I especially like is the way  
you can adjust how much white  
noise you want depending on what  
noise you are trying to mask.

I Love this product!  
My son sleeps so much  
better with it! I had to  
buy a 2nd one for his  
grandma's house. I also  
like that it is MADE IN  
THE USA! GO MARPAC

MORE EFFECTIVE THAN  
"NATURE-TYPE" SOUNDS.  
SIMILAR TO AN AIR  
CONDITIONER BUT MUCH  
MORE ECONOMICAL TO

BEST SOUND CONDITIONER EVER MADE. I CAN "HEAR" DIGITAL LOOPS  
ON YOUR COMPETITORS', BUT SINCE YOURS IS MECHANICAL, THERE  
IS NO PERCEIVABLE LOOP. PERFECT.M.F. - MANCHESTER, NH

I would have died from sleep  
deprivation if it were not for  
my sound machines. I sleep between  
two sound machines. P.J. -
